

The Big Bang Fair

West Midlands

FREE EVENT!
#TBBWM2018

Take your students on a journey of discovery into science and engineering.

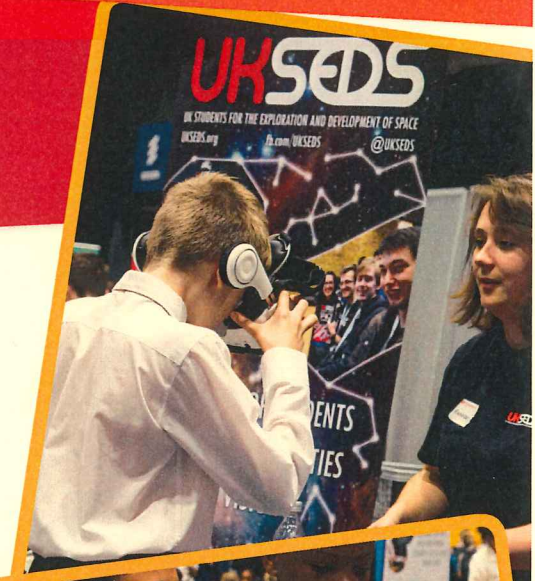

Event sponsored by:

West Midlands VENUE:

Location: Staffordshire University

Date: Tuesday 19th June 2018

Time: 9.30 - 3.30

The Big Bang Near Me is a UK-wide programme led by EngineeringUK to bring science and engineering to life for young people.

The Midlands programme runs in one of the largest regions in the country reaching over 25,000 young people through our fantastic STEM events. In 2017:

- Over 5000 young people attended the regional Big Bang events
- More than 100 exhibitors supported
- Played host to 4 different STEM Competition finals

The event is **FREE** to attend.

These free events bring the excitement and innovation of the Big Bang to a local level. They bring together a range of local and national industry players to demonstrate the opportunities available while enthusing young people in pursuing STEM careers.

Big Bang Near Me fairs will host the regional finals of the Big Bang Competition as well as Go4Set and CREST awards. It is a real opportunity for schools to showcase their STEM projects and acts as a pathway to the national finals held at the Big Bang UK Fair in 2018.

"This was our first Big Bang experience and we weren't sure what to expect. We really enjoyed it and hope to now send groups to both events next year."
