

Year 3 SEAC Mental Maths Homework for Spring 1

8 times table

The minimum expectation of engagement in mental maths homework is the same as reading. **3 times a week for at least 5 minutes each session. KS2 – As a minimum expectation, your child must complete the weekly sessions set for them, by the class teacher on TT-Rockstars. These sessions are monitored by the KS2 team via the online forum.** Below are some additional suggestions for activities you could do in a 5-minute session.

Verbal	Practical	Written
<p>Partner games: Someone says a number E.g 8 and your child says what 8 x 8 is.</p>	<p>Listen to and join in with this -times table Super Movers.</p> <p>https://www.bbc.co.uk/teach/supermovers/ks2-maths-the-8-times-table-with-filbert-fox/z4mrhbk</p>	<p>Beat a partner: With a partner choose a random card from the deck. Multiply the number card by 8. Write down the calculation E.g $8 \times 4 = 32$. Did you beat your partner?</p>
<p>Practice your 8 times table during activities E.g walking, singing or in the car.</p>	<p>Set a timer. Jog on the spot for 60 seconds and see how many 8 times tables you can say.</p>	<p>With a partner create 8 times tables multiplication problems. E.g <input type="text"/> $\times 8 = 16$ $8 \times$ <input type="text"/> $= 72$</p>
<p>Partner game: Someone says the answer E.g 80 and your child has to say the question E.g 8×10 makes 80.</p>	 <p>Use an egg carton and write a number in the bottom of each depression. Put a marble inside. Shake the egg carton, open the top, and whatever number the marble has landed on, you multiply it by 8.</p>	<p>Match the answer to the calculations.</p> <p>$8 \times 1 = 24$ $8 \times 3 = 16$ $8 \times 2 = 8$ $8 \times 5 = 80$ $8 \times 10 = 40$</p>
<p>https://www.youtube.com/watch?v=z_BJjR9rdwA</p> <p>Listen to and join in with this x8 song.</p>	<p>Play multiplication bowling on Maths Frame for the 8x table.</p>  <p>https://mathsframe.co.uk/en/resources/resource/504/Super-Maths-Bowling-Multiplication</p>	<p>Ask your child to be the teacher and mark the calculations you have written (you need to write some incorrectly for them to mark too. E.g $8 \times 1 = 20$ $8 \times 2 = 9$</p>

If you have chosen to complete some of these additional activities, you can show this to your child's class teacher and child champion by uploading 1 Dojo post a week, onto your child's portfolio. Thanks, the KS2 Team.
