

## Reception SEAC Mental Maths Homework for Summer Term 2

This half term your child will be working on these targets in their mental maths learning.

<b>Doubles to 5 + 5</b>

The minimum expectation of engagement in mental maths homework is the same as reading.

**3 times a week for at least 5 minutes each session.** Below are some suggestions for activities you could do in a 5 minute session.

Verbal	Practical	Written
Join in with the doubles song <a href="https://www.youtube.com/watch?v=Ik-OAgzD-8">https://www.youtube.com/watch?v=Ik-OAgzD-8</a>	Make a picnic for one on a plate, then double it for two on another e.g. one sandwich then two, two strawberries then four strawberries	Draw a ladybird and add spots to one of the wings, make the other wing a double
Say a number 2, 4, 6, 8, 10 and get your child to say the double calculation e.g. 10 = 5+ 5	Pick a number card between 1-5, gather the amount and then gather the double e.g. 4 cars and 4 more cars	Write the double calculations on different tubs e.g. 2+2, 3+3, count out the corresponding amount of pom poms 
Doubles song <a href="https://www.youtube.com/watch?v=At0quRa90rs">https://www.youtube.com/watch?v=At0quRa90rs</a>	Play 'doubles snap' when you have a pair say 'snap!'	Fill in the blanks e.g. 8 = ___ + ___ , 4 + ___ = 8, 2 = 1 + ___
Hopscotch 1-5, when you land on a number shout the double e.g. 3, 3+3 = 6	Fold a piece of paper in half, do finger painting dots on one side. Fold it together and open it out to see the double. Use this as a resource to help you recall your doubles. 	Be the teacher, mark your grown up's doubles. Can you correct their work too?
